PORTFOLIO DESCRIPTION & OBJECTIVE

The objective of the Aggressive Portfolio (AP) is to outperform CPI + 5% p.a. over five-year rolling periods on a net of fees basis. The primary objective is to maximise returns. The AP has no cognisance of capital preservation and large negative returns can be realised.

Risky asset classes have a relatively high weighting, which are close to the upper limits of Regulation 28. The AP is available to all members in the Fund, however, members over the age of 50 must obtain financial advice before accessing the AP.
